

International Journal of Mathematics and Statistics Invention

e-ISSN : 2321 - 4767 p-ISSN : 2321 - 4759

Contents :

Quantifying Case Flow Efficiency in Kenya's Employment and Labour Relations Courts: A Multi-Stage Queueing Model Approach	01-09
AN ANALYTICAL FRAMEWORK OF SHORTEST PATH OPTIMIZATION USING GRAPH THEORY	10-18
Bulk Transportation Problem with Multi-Objectives: A Modern Approach in Fuzzy Environment	19-23
Fuzzy Events of Theoretic Characteristics by Employing Pseudo Probabilistic Information Measure of Type Alpha	24-35
A New Type of Mappings in Nano Topological Spaces	36-41
Sombor Uphill Indices of Graphs	42-51
Two- Echelon Trade Credit Financing in a Supply Chain with zeibull Distribution and Exponentially Increasing Holding Cost	52-78
A Theoretical Analysis of Bile Flow Dynamics in The Diseased Cystic Duct with Axial Varying Viscosity: Casson Model	79-88

IJMSI
Volume 13 ~ Issue 3 ~ May-June - 2025
